

## BLC® SCRATCHBOARD® IP Series Products

### The Megalodon Difference

**IP Series Connectors & Cable Assemblies** are the industry's most reliable and rugged network solutions. The rugged design and construction of these connectors and cables are built to withstand the toughest applications. IP Series connectors are available in 10 Gbps, SFP+, SFP and RJ45 configurations to support a wide variety of equipment types. And large choice options are available for ruggedization, extreme temperature resistance. The rugged design makes connectors in the BLC® IP series, proving compatible with different systems, including some non-standard connectors. Connectors maintain an industry standard and proven connector performance and reliability.

IP connectors maintain ultra-high performance and ruggedness, providing industry leading performance and reliability.

### KEY BENEFITS

- Ruggedized Temperature Range
- Full Temperature Cycle Performance
- IP67/IP68/IP69K Ingress Protection
- 10 Gbps, 10 GbE, 40 Gbps
- Fiber Connectors and Patch Cords
- Ethernet Switching Modules
- High-Speed Data Transfer
- Proven Performance

### APPLICATIONS

- Marine & Maritime (BTL)
- Marine & Maritime (BTL)
- Subsea Data Transfer
- High-Speed Data Transfer
- Industrial
