

BELDEN® SCRATCHBOARD® Singlemode Patch Cables

The Megalon Difference

The Singlemode Belden Patch Cables manufactured for Megalon's award-winning ScratchBoard™ are optical performance and durability. These patch cables are built from the highest quality materials from leading manufacturers in the industry, and all constructed to industry standards and formats to the highest industry standards, including MIL-STD.

Megalon is capable of producing all custom fiber optic solutions, including MIL and factory direct standard arrays of fiber optic assemblies, including fiber patch and structured patch cables and assemblies. All finished assemblies adhere to Megalon's standard MIL, commercial, printed & provided, factory building standards (see details).

For more information on Megalon's MIL process and products, please visit megalonmfg.com.

KEY BENEFITS

- Superior Performance
- High Reliability
- 100% MIL-STD compliant
- 100% MIL-STD compliant
- 100% MIL-STD compliant
- 100% MIL-STD compliant
- 100% MIL-STD compliant

APPLICATIONS

- Aerospace
- Defense
- Industrial
- Medical
- Military
- Naval
- Space
