

LHM Singlemode Splitters

The Megalodon Difference

The compact, space-saving design of Megalodon's **LHM Singlemode (LHM) Splitters** offers flexibility in 1:1 to 1:8 split configurations.

Megalodon's LHM splitters offer superior physical and performance characteristics that have been proven reliable in a variety of field applications. Each splitter is custom built with specified fiber and connector types, and are completely compatible with the LHM footprint.

For more information on Megalodon's **LHM**™ process and products, please visit megalodonny.com.

KEY BENEFITS

- Compact and Space-Saving Design
- Customizable Splitting Ratios
- Low Insertion Loss
- Operates in Wide Ranges
- LHM Fiber Design is Flexible
- 1:1 to 1:8 Split Configurations
- Broadband Operation
- Flexible Mount Options
- Compact and Rugged
- High Reliability

APPLICATIONS

- Test Equipment
- Fiber Networks
- Local Area Networks
- Telecommunications
