MANUFACTURING GROUP, LTD

A TyRex Technology Family Company

HLC® SCRATCHGUARD® Singlemode Node Cables

The Megladon Difference

Singlemode (SM) Node Cables designed and manufactured by Megladon provide an extremely durable, high-performance and temperature-insensitive cable for CATV (cable television) deployments. We have carefully selected Hytrel Furcation Tubing, unique breakout epoxies and grommets custom made from brass for increased durability and seal from the elements. Our HLC connectors also provide elite optical performance.

For more information on Megladon's HLC process and products, please visit megladonmfg.com.

KEY BENEFITS

- ✓ SCRATCHGUARD Durable Mating Surface
- ✓ Cable grommet with 5/8" NPT thread, watertight
- ✓ Hytrel Furcation Tubing for temperature insensitivity
- ✓ HLC Connectors for best-in-class durability and optical performance
- ✓ Available with all major connector types
- ✓ Custom length and breakout types available
- ✓ 2-12 fiber available
- ✓ Variety of SM glass types available, including bend insensitive

APPLICATIONS

- ▶ CATV (Cable Television)
- ▶ Broadband Networks
- ▶ Connect Optical Distribution to Backbone Fiber
